

# Haiti Field Director's Update

## The fields are ripe in Haiti!

The past twelve months have brought many changes and encouraging progress to the Kids Alive ministry here at Haiti Children's Village and School, and we look forward to continuing the momentum and building on the work already begun.

Life in Haiti is not easy for children left behind by poverty, disease, homelessness, hunger, and lack of access to education. That's why we're passionate about the work we do, sharing hope for the future and the power of the Gospel to change lives. And your support is making it all possible.

We're very encouraged to have completed some building projects and to watch others nearing the finish line. Much still remains to be done to give our kids the very best facilities we can provide, but the changes that are occurring are bringing smiles and sending the message to our kids that they are worth the investment and that we believe in them.

Our new, permanent school building will be completed and ready for the January trimester! Kids Alive believes that quality education is the key to moving kids out of oppressive generational poverty, and it's important to have a well-equipped place for that education to happen.

But even more important is the joyful reality of 17 of our kids coming to know the Lord and being baptized.

We now have the urgent task of discipling them and helping them to take their places in the Body of Christ, creating ripples of hope in Haiti far beyond our Kids Alive walls.

Thank you, once again, for your investment in the lives and futures of Haiti's children!
